THE ETHICAL BEAUTY

THE MATERIAL THAT REINVENTS SURFACES
CREATED WITH MORE THAN 90% RECYCLED GLASS

A material created for architects, interior designers and designers who can devise more sustainable and environmentally friendly kitchens and bathrooms with the same technical specifications of other non-recycled COMPAC materials.

ES EL MATERIAL QUE REINVENTA LAS SUPERFICIES,
CREADO CON UN 90% DE VIDRIO RECICLADO

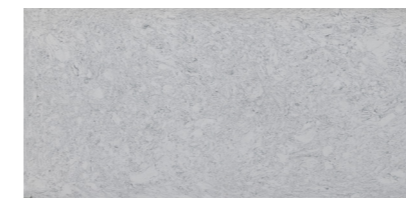

Un material concebido para que arquitectos, interioristas y diseñadores puedan diseñar cocinas y baños más sostenibles y respetuosos con el medioambiente con las mismas prestaciones técnicas que otros materiales COMPAC no reciclados.

FINISHES / ACABADOS

glacéfinish

Perfect matt, smooth and glowing, a soft sensation to the touch, the absence of reflections and fast, easy cleaning. Beautiful and practical at the same time, with one single finish.

Mate perfecto, liso y brillante, una sensación suave al tacto, ausencia de reflejos y limpieza rápida y fácil. Hermoso y práctico al mismo tiempo, con un solo acabado.

Polished

A finish that intensifies colours, giving them more life, and enabling you to give a distinctive seal to your surroundings. A finish that reflects the personality of a true connoisseur.

Un acabado que intensifica los colores, dándoles más vida y permitiéndole dar un sello distintivo a su entorno. Un acabado que refleja la personalidad de un verdadero experto.
